The city of São Paulo will host the 28th APLA Logistics Meeting.

This event has become an essential space to explore the latest trends, strategies, and emerging technologies that are transforming the many dimensions of logistics in the petrochemical and chemical industry.

Over the past 28 years, the meeting has established itself as the ideal forum for sharing best practices and generating new business opportunities. Each edition reaffirms its value as a meeting point that strengthens professional relationships among peers, clients, and suppliers, while offering a space to anticipate the advances that will shape the future of logistics management.

WHY ATTEND?

PARTICIPANT PROFILE

Executives from Supply Chain, Operations and Logistics, Procurement, and Commercial areas in the petrochemical and chemical industry.

Representatives from petrochemical and chemical producing and distributing companies.

Empresas importadoras y exportadoras.

Logistics service providers.

Port terminals and logistics operators.

GROWTH:

Participation in conferences and workshops led by top regional experts and thought leaders.

OPPORTUNITY:

Access to tools and knowledge to optimize supply chain processes. Presentations and discussions offer diverse perspectives to enhance productivity and reduce costs and lead times.

INSPIRATION:

Promotion of professional practices that generate a positive economic, social, and environmental impact.

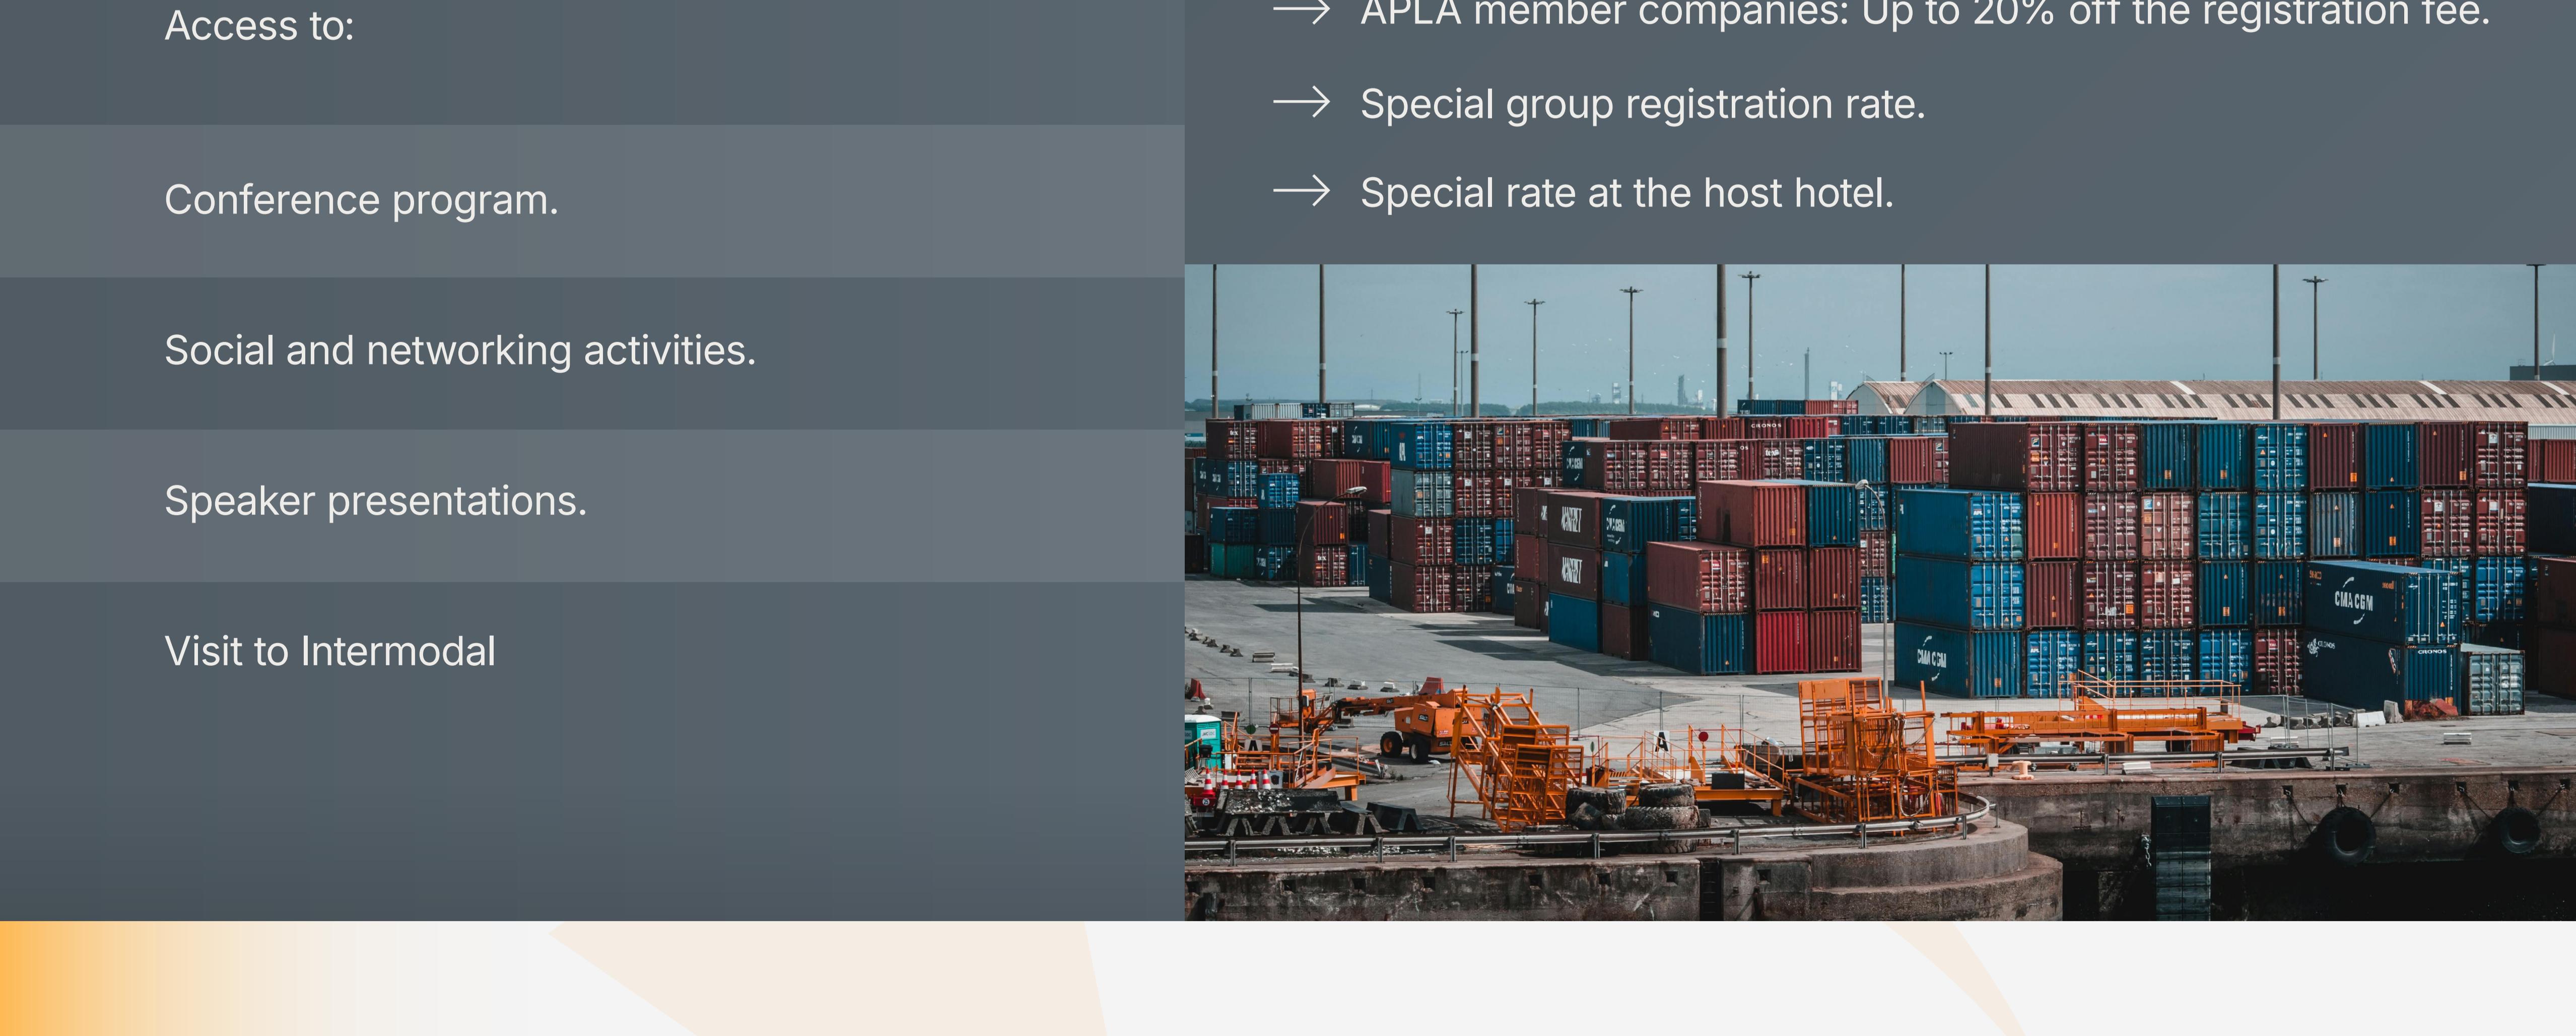

Participation in the 28th APLA Logistics Meeting includes access to Intermodal South America, the region's leading fair for logistics, intralogistics, technology, foreign trade, and multimodal transportation.

This visit offers the opportunity to explore innovative solutions to optimize the supply chain and access specialized content.
